Author Alphabetical Index » 2005

NAME	ISSUE #	PAGE #	ARTICLE TITLE
Anderson, Michael, Cdr., USCG	1	91	A Network-Centric Approach to Maritime Domain Awareness
Calfo, Ray	4	59	High Temperature Superconducting Motor Power Density Improvements
Colwell, J.L.	1	77	Modeling Ship Motion Effects on Human Performance for Real Time Simulation
Dean, Anthony	2	29	A Statistical Examination of Sea Valve Failure Rates
Eckels, P.W.	4	31	5 MW HTS Ship Propulsion Motor Design and Test Results
Elger, Wallace	4	37	Development of Fiber Metal Electrical Brushes for 500 kW SSMG Sets
Farr, Chris	4	59	High Temperature Superconducting Motor Power Density Improvements
Farahani, Ali	4	23	Design and Development of a 2-Megawatt Advanced, High Speed Permanent Magnet Generator for Shipboard Auxiliary Power Unit Application
Fung, James	3	87	ORTSTARS: The Way Ahead for Distance Support
Godwin, Lawana	3	87	ORTSTARS: The Way Ahead for Distance Support
Hawkins, Larry	4	23	Design and Development of a 2-Megawatt Advanced, High Speed Permanent Magnet Generator for Shipboard Auxiliary Power Unit Application
Holden, Richard	3	63	Engineering the Total Ship: A System Perspective on Warships
Hootman, John C.	3	43	A Military Effectiveness Analysis and Decision Making Framework for Naval Ship Design and Acquisition
Huynh, Co	4	23	Design and Development of a 2-Megawatt Advanced, High Speed Permanent Magnet Generator for Shipboard Auxiliary Power Unit Application
Kaufmann, Paul	2	29	A Statistical Examination of Sea Valve Failure Rates
Kulkarni, P.R.	1	41	Flow Visualization Studies of Exhaust Smoke-Superstructure Interaction on Naval Ships
Lunsford, Phil	2	29	A Statistical Examination of Sea Valve Failure Rates
McMullen, Patrick	4	23	Design and Development of a 2-Megawatt Advanced, High Speed Permanent Magnet Generator for Shipboard Auxiliary Power Unit Application
Mongeau, Peter	4	53	High Temperature Superconducting Motor Power Density Improvements
Oğuztüzün, Halit	1	23	Developing an HLA-Based Naval Maneuvering Simulation
Osborne, Michael	3	79	Operating Speed Profiles and the Ship Design Cycle
Parsa, Leila	4	45	A Fault Resistant IPM Motor Drive for Wide Speed Range Operation
Rushworth, Denis H.	2	35	The Navy and Asbestos Thermal Insulation
Seshadri, V.	1	41	Flow Visualization Studies of Exhaust Smoke-Superstructure Interaction on Naval Ships
Sha, O.P.	2	57	Practical Hydrodynamic Design of Bulbous Bows for Ships
Sharma, R.	2	57	Practical Hydrodynamic Design of Bulbous Bows for Ships
Sims, Phillip	1	101	Counter-Capsizing a Battleship
Singh, S.N.	1	41	Flow Visualization Studies of Exhaust Smoke-Superstructure Interaction on Naval Ships
Snitchler, G.	4	31	5 MW HTS Ship Propulsion Motor Design and Test Results
Surko, Steve, Cdr., USN (Ret.)	3	79	Operating Speed Profiles and the Ship Design Cycle
Timm, Joel	3	87	ORTSTARS: The Way Ahead for Distance Support
Toliyat, Hamid A.	4	45	A Fault Resistant IPM Motor Drive for Wide Speed Range Operation
Tonthat, Hai	3	87	ORTSTARS: The Way Ahead for Distance Support
Topçu, Okan	1	23	Developing an HLA-Based Naval Maneuvering Simulation
Whitcomb, Cliff, Dr.	3	43	A Military Effectiveness Analysis and Decision Making Framework for Naval Ship Design and Acquisition
Wintersline, Bruce	1	91	A Network-Centric Approach to Maritime Domain Awareness

Chronological Index » 2005

[Winter 2005, Volume 117, No. 1]

TITLE	AUTHOR(S)	PAGE #
Developing An HLA-Based Naval Maneuvering Simulation	Okan Topçu, Halit Oğuztüzün	23
Flow Visualization Studies of Exhaust Smoke-Superstructure Interaction on Naval Ships	P.R. Kulkarni, S.N. Singh, V. Seshadri	41
Practical Hydrodynamic Design of Bulbous Bows for Ships	R. Sharma, O.P. Sha	57
Modeling Ship Motion Effects on Human Performance for Real Time Simulation	J.L. Cowell	77
A Network-Centric Approach to Maritime Domain Awareness	Cdr. Michael Anderson, USCG, Bruce Winterstine	91
Counter-Capsizing a Battleship	Phillip Sims	101

[Spring 2005, Volume 117, No. 2]

TITLE	AUTHOR(S)	PAGE #
A Statistical Examination of Sea Valve Failure Rates	Paul Kaufmann, Anthony Dean, Phil Lunsford	29
The Navy and Asbestos Thermal Insulation	Denis H. Rushworth	35
ASNE Day 2005 Acknowledgements & Proceedings, Speeches		49

[Summer 2005, Volume 117, No. 3]

TITLE	AUTHOR(S)	PAGE #
A Military Effectiveness Analysis and Decision Making Framework for Naval Ship Design and Acquisition	John C. Hootman, Dr. Cliff Whitcomb	43
Engineering the Total Ship: A System Perspective on Warships	Richard Holden	63
Operating Speed Profiles and the Ship Design Cycle	Cdr. Steve Surko, USN (Ret.), Michael Osborne	79
ORTSTARS: The Way Ahead for Distance Support	Hai Tonthat, James Fung, Joel Timm, Lawana Godwin	87
ASNE Day 2005 Banquet Address, Award Winners		21

[Fall 2005, Volume 117, No. 4]

TITLE	AUTHOR(S)	PAGE #
Design and Development of a 2-Megawatt Advanced, High Speed Permanent Magnet Generator for Shipboard Auxiliary Power Unit Application	Co Huynh, Larry Hawkins, Ali Farahani, Patrick McMullen	23
5MW HTS Ship Propulsion Motor Design and Test Results	P.W. Eckels, G. Snitchler	31
Development of Metal Fiber Electrical Brushes for 500 kW SSMG Sets	Wallace Elger	37
A Fault Resilient IPM Motor Drive for Wide Speed Range Operation	Leila Parsa, Hamid A. Toliyat	45
High Torque Density Propulsion Motors	Peter Mongeau, Jim Burns	53
High Temperature Superconducting Motor Power Density Improvements	Chris Farr, Ray Calfo	59
